

## General information

Naginata in Israel is still in its early development stages. There are currently about 20 active practitioners, all of them are of beginner level, and the most experienced have about 1.5 years of practice.

As of today the entire activity is directed and managed mostly by myself. That activity includes coordinating and leading weekly trainings, creating special events such as extensive trainings, public performances, tournaments and mock exams. Also, I am responsible for advertising the Naginata, public relations and maintenance of the equipment.

## Current clubs

| 1. | Club Name                   | Judea Lions   |
